

San Francisco Paralegal Association (SFPA) Digital Tech Summit

October 8, 2022

San Francisco Paralegal Association's (SFPA) virtual Digital Tech Summit was a great refresher on e-discovery basics. Jennifer Resnicke reminded the attendees of the importance of data mapping, the difference between collections and preservation, and leveraging technology to survive the redundancy of document review.

The Tech Summit offered a review and demo of some of today's most prevalent e-Discovery platforms: DISCO, Relativity, Everlaw and Lighthouse Spectra. Each 45-minute session offered a review and demo of the unique elements offered by each e-Discovery platform.

Thank you SFPA!

Many thanks to the following:

Catherine McKenzie/Barbara Burke – DISCO

Jonah Deutschman/Meredith Perry/Torben Rankine – Relativity

Moira Duffy/Chuck Kellner – Everlaw

Alex Lubarsky/Reem Saffouri/Nick Lacis – Lighthouse Spectra

Maureen C. Washington is a litigation paralegal, NALA Advanced Certified Paralegal and California Advanced Specialist. She works for Latham & Watkins in the litigation and trial department on complex litigation matters across a range of industries including, but not limited to, Aerospace, Defense & Government Services, Insurance, and Technology.

Maureen also serves as the San Diego Paralegal Association's (SDPA) Bar Liaison Director and is a member of the SDPA NALA Liaison Committee under the leadership of Kristine Custodio Suero.
